ROCK

can be thrown any way as long as the fist is clenched.

SCISSORS

is formed with your index finger and middle finger extended and shaped like a "V". It can be thrown horizontally or vertically.

PAPER

is formed by extending all your fingers out. It is always delivered horizontally and palm down.

THE PUMP

consists of closing a fist, holding it out in front of your body with elbow bent at a 45 degree angle, and thrusting it up and down 2 times and then "shooting" on 3. This must be done in sync with the opposing player.

THE SHOOT

is when a player actually delivers the throw. It comes after the first 2 pumps. The delivery of the shoot must be in sync with the opponent. If the shoot or the pump is not in sync at any time, the referee may declare the action dead, or penalize the player at fault.
